

Office of Institutional Research & Planning

We want to hear from you

Carleton University takes part in a number of surveys in order to learn more about your university experience.

On February 6th, a random selection of 1,500 final-year students will be sent an invitation to their Carleton email address to participate in the Canadian University Survey Consortium (CUSC). If you have received an invitation to this survey, please take the time to fill it out!

CUSC is not just another survey! It is a priority survey for the university and by filling it out you are letting us know more about what is important to you. And we listen! CUSC survey results help us understand what we are doing well and where improvements are needed across campus. In addition to being used internally for university priority setting and planning, CUSC survey results have also been used by external publications like Maclean's in their University Ranking issue. A high response rate to this survey helps ensure that a wide range of experiences and feedback are accounted for, and that the survey results are as representative of all students as possible.
